**Correction: Int J Equity Health 21, 180 (2022)**  
<https://doi.org/10.1186/s12939-022-01788-0>

After publication of this article [1], the authors reported that in Table 7 the odds ratio for 'Household size < 5' was incorrectly given as '2.127' but should have been '2.218'; and in Table 8 the odds ratio for 'Poorest: Under 1,000,000 LAK (62.2 USD)/month' was incorrectly given as '3.369' but should have been '3.339'.

The original article [1] has been corrected.
